

FRONT MOUNT SWEEPER

Model 700 Front Mount Sweeper

Economical, powerful sweeping with front-mounted control.

- **Maximum sweeper control** — front mounted hydraulic sweeper for precise directional control in close quarters.
- **Angles left or right** — can be manually adjusted to sweep at angles up to 30° from center.
- **Choice of brushes** — select 30" diameter, 84" long brush made of poly or crimped wire or ½ poly/½ wire.
- **Options** — special paint, sprinkler system or front dirt deflector.
- **Mounting** — contact factory for mounting options.
